BEL RCA VISION TWIN 90Ei**Summary**

Short Product description

90cm Electric range cooker with a 5 zone induction hob, conventional second oven & grill, and multifunction main oven with integrated grill

Long product description

This 90cm twin cavity electric induction range cooker is part of the Belling Vision collection. A suite of brilliantly practical products that blend premium design with affordable prices.

With a 104L total cooking capacity, and a 5 zone induction hob, this twin cavity range cooker gives you the freedom to cook more, your way.

Full of trusted features you would expect from Belling including:

Twin Grills with two grill pans. This range cooker comes equipped with two separate grills, designed to match your cooking needs big or small.

Premium finishes including the sturdy metal dials and handles, engineered to stand the test of time and look great doing it

Easy-clean enamel. Smooth, strong and hardwearing, it provides that extra layer of protection so all those stubborn stains and splatters just wipe away.

5 zone induction hob with 9 power levels + boost. This advanced induction technology heats the pan instead of the hob to speed up the cooking process. When you need serious heat, the Boost function delivers an instant surge of power to get things sizzling in no time

Storage drawer, ideal for freeing up cupboard space or neatly tucking away any oven shelves you're not using

But the star of the show? Vision+ Glass. When the oven is off, its opaque black finish blends beautifully into your space. The moment you start cooking, halogen lighting activates, turning the glass into a clear window, so you can check on your food without opening the door or losing heat.

Range Overview

Introducing Belling Vision—the brilliantly practical freestanding cooking collection that blends premium design with affordable prices.

Packed with the trusted features you'd expect from Belling, including spacious ovens, self-cleaning catalytic liners, and powerful wok burners, this Vision collection has everything you need for effortless everyday cooking.

What truly sets these cookers apart is their high-end finishes, including metal dials and handles, giving you a stylish, quality feel that enhances any kitchen.

But the star of the show? Vision+ Glass. When the oven is off, its opaque black finish blends beautifully into your space. The moment you start cooking, halogen lighting activates, turning the glass into a clear window—so you can check on your food without opening the door or losing heat.
